

# MPOWERME Early Learning & Intervention: Three-by-Three Play Picks

*Therapist-curated resources for joyful skill building*

At MPOWERME, we use play as a therapeutic pathway. These Early Learning & Intervention picks are OT and SLP-informed and chosen for how well they support sensory regulation, communication, and foundational motor and cognitive skills in everyday routines.

Each trio below offers multiple ways to engage little ones -- from bilateral coordination and fine motor practice to early math, problem-solving, and social-emotional growth. Use these tools during playtime, therapy carryover, or family routines to build skills through play.
